**Subject: New Products Evaluation Committee Action on the Comnet Data Repeater and Video Transceiver**

The Products Evaluation Committee has evaluated the Comnet Data Repeater (Model FDX55S2) and Video Transceiver (Model FVT/FVR1032S) for use on Georgia DOT projects based on equipment documentation provided by Comnet that indicated compliance with Georgia DOT requirements.

Units deployed in field testing have experienced no problems over a period of 90 days. Therefore, the Committee has approved the subject product for inclusion into the Georgia DOT Qualified Products List (QPL).

If you have any questions concerning this matter, feel free to contact:

Victor Johnson at (404) 624-7814 or  
Brennan A. Roney at (404) 363-7606

Georgia Department of Transportation  
935 E Confederate Ave  
BLDG 5  
Atlanta, GA 30316

We appreciate your interest and efforts in marketing products that may be of benefit to the Georgia Department of Transportation.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith Golden".
