FOCUSED ON YOU

At ComNet, we've built our reputation on our extensive line of quality fiber optic and Ethernet network transmission products and exceptional customer care.

Try us for your next project, we are confident you'll enjoy the experience. We make great customer experience the rule rather than the exception.

ComNet is customer care the way you remember it, the way it's supposed to be. It's that "Can-Do" attitude dedicated to solve any challenge completely, quickly and thoroughly. At ComNet, we're doing it right the first time.

A Company That's Easy to Do Business With

ComNet is focused on earning your trust. ComNet provides innovative solutions to your fiber optic transmission and Ethernet network requirements surrounded by a group of talented employees dedicated to solving your challenges.

SUPPORT

### Customer-Care – Delighting the Customer
ComNet Customer Care is here to provide solutions. Staffed by experienced, knowledgeable, courteous representatives, the ComNet Customer Care team is there to help. Courteous Customer care representatives are here to answer your questions concerning pricing, product availability, order-status, shipping dates, returns, warranty claims and so much more.

Product Training and Education
ComNet offers a full curriculum of fiber optic and Ethernet product training designed to help you make the correct choices when selecting the right transmission products. Available on-line or in-person, ComNet training qualifies for CEU credit.

Architect, Engineer and Integrator Support
ComNet makes available comprehensive product documentation and design tools to make the design process proceed as simply as possible. ComNet helps by providing the tools you need and complete product documentation, including A&E Specifications and CAD Drawings.

SAVING YOU TIME & MONEY

The Products You Need;
In-Stock and Ready When You Need Them

ComNet ships 95% of our products from stock within 48 hours. ComNet products are stocked in strategic locations throughout North America and Europe. This means that wherever you are in the world, the ComNet product you need can be quickly delivered.

Product Pre-Installation

Are your ComNet products being installed in ComNet racks on site? ComNet can save you time and money. Just send us the configuration details and we will be happy to install them into the ComNet card cage at no charge.

Lifetime Warranty

We're so confident in the long-term reliability of our products, we back them with a no-questions asked Lifetime Warranty.

Tools to Make Designing a System as Easy as Possible

Take advantage of ComNet System Builder. This free software tool allows you to build a signal transmission system based on your project's requirements. The System Builder design tool allows you to completely design your transmission system from start to finish.

You can build your system by knowing the type of signal being transmitted or through use of a Cross-Reference against other manufacturers' part numbers.
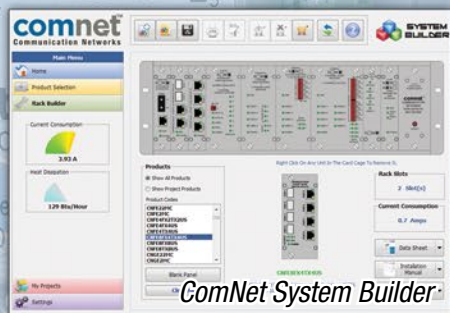

SELECTED & APPROVED

Approved for Use in the Most Environmentally Challenging Applications

ComNet products have been approved for use in the most demanding applications. Temperature, humidity, shock, and vibration – CALTRANS, NEMA, NCDOT, GDOT, and many others; these agencies set performance standards and ComNet products exceed those standards. ComNet products are approved for use in harshest inside and outside applications imaginable.

ComNet products go through an extensive safety testing process and are UL certified. In addition, all ComNet products are FCC and CE approved.

USA General Services Administration

The United States Government strongly supports the "Made in the USA" initiative. ComNet fiber optic and Ethernet products are designed and manufactured in the United States of America, giving those purchasing for Government projects a source for quality USA-made transmission products. ComNet products are available under GSA contract GS-07F0398W.
