

Ethernet Equipment Sold Separately (Consult Factory)

The ComNet CNEE1 Electrical Enclosure Kits provide an all-in-one solution for pole mount applications. The base CNEE2 kit includes the enclosure, wall mount feet, cable glands and DIN Rails. In the base configuration, there is 13.412" x 15.412" x 7.6" (W x H x D) of space internally and the cable glands will support an AC Mains Input and up to sixteen Ethernet or Fiber Optic cables up to 6 mm in diameter each.

The high quality polycarbonate enclosure is made for electrical applications and has a UL Flame rating of UL94V-0.
